Pre-Conference In-Depth Day

Tuesday, March 29 | 9 a.m. to 5 p.m.

Invisibility is Not a Superpower

Heartbeat International Panel

No offense to the invisible man, but there's not much upside to remaining unseen. Internet invisibility can be particularly painful for your pregnancy help effort for the simple reason that if a client can't find you, she's not likely to be helped by you. Likewise, if potential donors can't find you, their dollar is going to end up somewhere else. Join Heartbeat International's five-expert panel as they help you down the road to visibility through social media, local search, websites, newsletters and more.

Making the Case for Life

Mike Spencer, Life Training Institute

Do you ever find yourself struggling for the words to defend your pro-life stance? Mike will equip you to respond to popular "pro-choice" arguments and to expose the logical fallacies of abortion-choice rhetoric without the need for vitriol and angry dialogue.

Ministering Meaningfully with Major Donors

Wesley Rediger, Rediger Taylor Group

Effective compassionate ministry focuses on donors as much as on clients. Uncover the Biblical basis for ministry with donors, principles of cultivating donor passion and how to draw major donors into your circle.

Abortion-Minded Caller Start to Finish

Brad Imler, Ph.D. ACP, American Pregnancy Association

Talking to abortion-minded clients is intimidating. Gather the tools needed to gain confidence as you engage in these conversations about life and death situations.

Messaging for the Court of Public Opinion

Bruce Smith, Vice President, Alliance Defending Freedom

Is your community on your side? How do you get them there? Take this chance to focus on the strategy and mindset needed to successfully manage interviews and the verbal and non-verbal communication techniques to persuade and motivate the court of public opinion.

Volunteer Training: The LOVE Approach

Carrie Beliles, Heartbeat International

This interactive training is for new volunteers, trainers of new volunteers, and will be a refresher for experienced client services staff. This training in effective and compassionate outreach is used by pregnancy help organizations all over the world. Those in attendance will receive The LOVE Approach™ Training Manual.

*Integrating STI Services for Today's Client

Karolyn Schrage, RN BSN, LifeChoices Health Network, Mischa Long RN, Clarke T. Cayton

STI testing creates access-points for your center - giving you a pro-active response to help prevent unwanted pregnancies and intervene in the lives of men and women who are most abortion-vulnerable. Learn the steps to integrate STI testing and treatment and develop a clinic strategy to be an answer to the sexual health crisis of your community.

Teaching Virtue in a Complicated Culture

Leslee Unruh, National Abstinence Clearinghouse

Almost half of pregnancy tests at a pregnancy center are negative. With so much information on how to talk to youth about sex, what information is best? This in depth day will help you maximize the opportunity to talk with youth about sexual integrity both inside and outside the pregnancy center.

Surrendering the Secret

Pat Layton, Surrendering the Secret

This is an excellent training resource for independent post-abortion recovery leaders, pregnancy resource center volunteers and staff; church ministry leaders and Christian Counselors and Coaches. This training will equip attendees to fully understand the STS healing process and includes tools for engaging the church; reaching women and men who need help and step by step tips on how to get your ministry started.

Five Guarantees When Doing Pregnancy Center Work

Andy Merritt, Edgewood Baptist Church

Join us for a day of spiritual refreshment. Drawing lessons from Nehemiah 4, we will discover five guarantees when doing God's work and how God's grace is adequate for any and every circumstance we face in pregnancy help ministry.

Legal Essentials

Danielle White, J.D., Ellen Foell, Esq., Heartbeat International

Many of the topics discussed at this in-depth day are applicable for any non-profit organization, including pregnancy help centers, maternity homes, post-abortion programs, adoption services, and other pro-life ministries. Legal Essentials will highlight parameters for successful legal compliance, real-life examples to help you protect your ministry, and criteria to evaluate when to seek legal help.

Trauma Informed Care in the Maternity Home

Belinda James, MOFDC, MSW facilitated by Mary Peterson, LAS

Join maternity homes and other life-affirming organizations for a day of learning and discussion on how to be aware of and sensitive to the role that traumatic events play on the women we serve. This training, geared toward those without counseling training, will focus on creating a culture and environment of safety and healing. Topics will include trauma-informed care, overview of mental health, and practical examples of how to address trauma within a life-affirming context.

Executive Round Table

Tim Welsh, PDHC, Jor-EI Godsey, Heartbeat International

Rapid changes are driving a dynamic future PHOs will have to adapt to. This Roundtable will explore "futuring" by discerning global trends beyond our normal strategic planning window. Understand the future more clearly with this fast paced, cutting edge forum that will help you lead your organization in, and into, the future. Executive Roundtable is reserved for executives of organizations ≥\$350K, or are multi-site.

*Ultrasound Scanning and Optimizing Your Staff

Connie Ambrecht, RDMS, CMB, Sparrow Solutions Group

It's time for some scanning practice for the RDMS or the RN in a pregnancy medical clinic. Whether you serve together or independently, the PMC of today benefits from both of you, especially when you work well together. Get ready to do both at this in-depth day.

*Violence Against Women and Abortion

Martha Shuping, MD

In this course, nurses/attendees will learn to identify clients who are victims of intimate partner violence (domestic violence) and/or reproductive coercion, how to conduct screening, and best practices for responding and referring patients for further services to increase patient safety, and improve bio-psychosocial outcomes.

**Provider approved by the California Board of Registered Nursing, Provider Number 16061 for 6 contact hours for each In-Depth Day.*
